OUR PHILOSOPHY

At the heart of our spa lies a unique wellbeing philosophy: we honour the timeless wisdom of Eastern traditions, which resonate with our hotel's Thai heritage, while embracing the precision and innovation of modern science.

Every treatment, ritual, and recommendation is thoughtfully curated to harmonise ancient healing practices with evidence-based technologies, creating experiences that are both sensorial and strategic.

Rooted in the realities of modern living, our therapies also address the pressures of today - chronic stress, hormonal imbalance, anxiety, and emotional overwhelm, to ensure that each guest receives care that is not only restorative, but deeply relevant to their current state of wellbeing.

Whether you're seeking deep relaxation, targeted recovery, or holistic transformation, our approach ensures that your journey is authentic, expertly guided, and tailored to your individual needs.

OUR PARTNERS

OSKIA
LONDON

OSKIA's award-winning formulations harness bio-available nutrients and clinical actives to create a radiant, revived complexion. They specialise in cellular nutrition through patented biotechnology to boost cellular activity for healthier skin. Their bespoke spa treatments blend traditional techniques, like acupressure, specialist facial massage, reflexology, lymphatic drainage, and microbiome harmonisation with advanced technology, leaving skin, body, and mind nourished, soothed, and fully restored.

Driven by science to enhance skin regeneration, QMS Medicosmetics was founded on a highly effective collagen complex, one of the beauty sector's most iconic innovations. Their treatments rebuild and strengthen the skin's framework, addressing root causes. Each approach is bespoke, combining cutting-edge products, gentle non-invasive techniques, and signature massage methods to preserve the skin's natural barrier, leaving it visibly renewed, revitalized, and truly healthier.

Ashmira Botanica combines natural, botanical skincare with the ancient wisdom of traditional Eastern medicine. Guided by the Five Elements, their holistic approach personalises treatments to balance skin, body, and mind, using tailored products, advanced touch techniques, ceremonial cacao, and sound and energy healing. Ethically sourced and sustainably crafted, their skincare nourishes, rejuvenates, and restores radiance, promoting harmony from the inside out.
